DRESSING DRUM

Dressing Drums Seamless (Joint Less) & (Jointed)

Description:

Dressing Drums are used for sterilizing and storing various types of dressings, instruments and surgical requisites that are used by the patients in a disinfected way. These drums are made from high quality hard stainless steel with different layers such that more items can be kept inside it. It also has holes that allow exhausting the steam from outside. Dressing drum is a vital part in a hospital as we believe that only the germ-free environment can bring the patients into good conditions.

Features:

- Dressing drums at Max life are available in different sizes. Made of stainless steel 202 & 304 grade.
- Products that have been mentioned as Super Deluxe are made up of heavy quality. Available in both constructions jointed and seamless.
- Highly reliable and durable.
- Can be used to store sterile bathrobes, dressings, and operational linen etc.
