

The logo features the letters 'S', 'M', and 'K' in a bold, sans-serif font. The 'S' and 'K' are red, while the 'M' is purple. The letters are set against a white circular background that is part of a larger orange and yellow graphic design.

SМК

PHARMA

A keen understanding of the end-user requirement has allowed SMK Pharma to emerge as a key partner of the healthcare sector in India. Our range of products encompasses the critical elements that help healthcare organizations deliver on customer expectations. The combination of an experienced workforce & strict quality control procedures suitably places us to partner your organization in enhancing the quality of patient care.

We have been privileged to work with a diverse range of customers ranging from large corporate hospitals to local nursing homes. Our customers have consistently placed their faith in our products and services and have helped us grow from a manufacturing unit into an organization that has developed critical insight into the requirements of healthcare providers.

We have translated this insight into three focus areas

- ✚ **Customization:** We understand the unique requirements of small and large organizations alike and work closely with our customers to transform their material needs into customized products.
- ✚ **Delivery:** Our branch offices & supply-chain partners ensure timely delivery service of
- ✚ **Quality:** We understand that there can never be any compromise over quality and accordingly we lay strict emphasis on measuring quality and constantly upgrade our quality control processes to keep pace with globally acknowledged standards. As the healthcare sector marches ahead into a new era of competitive growth amidst immense opportunity, our experience makes us suitably placed to partner your organization as you look towards constantly enhancing the quality of your patient-care.

DISPOSABLE PRODUCT

- ALL TYPE OF DRAPES
- DISPOSABLE GOWN
- GLOVES
- BUFFENT CAP
- SHOE COVER
- HOSPITAL BED SHEET

ORTHOPEDIC DRESSING PRODUCT

- CREAPE BANDAGE
- ROLLER BANDAGE
- CANULA FIXATOR
- PLASTER OF PARIS BANDAGE
- COTTON GAUZE SWABE PRODUCTS

UROLOGY PRODUCT

- FOLEY CATHETER
- URINE BAG
- GIBBONS CATHETER

SURGERY & WOUND CARE

- PRAP RAZOR
- SURGICAL BLADE
- ABDOMINAL DRAINAGE KIT
- YANAKUAR SUCTION KIT
- CORRUGATED DRAIN SHEET

HYGIENE PRODUCT

- SANITARY PAD
- MENSTRUAL CUP
- MATERNITY PAD
- UNDERPAD
- DIAPER - ADULT

ANAESTHESIA & RESPIRATORY CARE

- NASAL OXYGEN CATHETER
- OXYGEN MASK
- NEBULIZER KIT
- VENTURI MASK
- CATHETER MOUNT
- VENTILATOR BAINS CIRCUIT
- 3 BALL SPIROMETER
- BREATHING FILTER
- BIPAP MASK

GASTROENTEROLOGY PRODUCT

- INFANT FEEDING SET
- RYLE'S TUBE
- STOMACH TUBE
- LEVIN'S TUBE

INFUSION AND TRANSFUSION PRODUCT

- IV SET
- BLOOD TRANSFUSION SET
- 3-WAY STOP COCK
- INTRAVENOUS CANNULA
- SCALP VEIN SET
- MESURE VOLUME BURETTE SET

ANESTHESIA / RESPIRATORY

Endotracheal Tube (Cuffed)

- Provided with soft cuff based on high volume and low pressure at the distal end
- Non-return valve with pilot cuff for easy assessment of the pressure in the main cuff

Sizes	
Sizes	5.0 mm to 10.0 mm

Endotracheal Tube (Uncuffed)

- Made of special thermo sensitive material readily conforming to body curvatures at body temperature

Sizes	
Sizes	2.5 mm to 5.0 mm

Safety Tube

Reinforced Endotracheal Tube

- Flexo—Metallic Reinforced Endo Tracheal Tube for airway management intended for use in surgeries demanding flexible head or neck position.
- Specially designed, suitable to laryngeal—tracheal anatomy, ensuring patient safety.
- Flexo—Metallic feature provides 100% kink resistance & anti crushing strength to the Endo Tracheal Tube.

Sizes	
Sizes	3.0 mm to 10.0 mm

Ray Nasal / North Polar Tube (Uncuffed)

- Made of special thermo sensitive material readily conforming to body curvatures at body temperature

Sizes	
Sizes	3.0 mm to 5.0 mm

Ray Nasal / North Polar Tube (Cuffed)

- Provided with soft cuff based on high volume and low pressure at the distal end
- Non-return valve with pilot cuff for easy assessment of the pressure in the main cuff

Sizes	
Sizes	3.0 mm to 8.5 mm

Ray Oral / South Polar Tube (Uncuffed)

- Made of special thermo sensitive material readily conforming to body curvatures at body temperature

Sizes	
Sizes	3.0 mm to 5.0 mm

Ray Oral / South Polar Tube (Cuffed)

- Provided with soft cuff based on high volume and low pressure at the distal end
- Non-return valve with pilot cuff for easy assessment of the pressure in the main cuff

Sizes	
Sizes	3.0 mm to 8.5 mm

Introducer Bougie

The tracheal tube introducer, known as the bougie, is typically used to aid tracheal intubation in poor laryngoscope views or after intubation attempts fail. The effect of routine bougie use on first-attempt intubation success is unclear.

Sizes	
Sizes	10 FR 70 CM/ 15 FR 70 CM

INTUBATION STYLET

The stylet is a rigid but malleable introducer which fits inside the endotracheal tube and allows for manipulation of the tube shape; to facilitate passage of the tube through the laryngeal inlet.

Sizes	
Sizes	6 FR/10FR/14FR

Laryngeal Mask Airway

- Specially engineered laryngeal mask comes with separate inflation line
- Disposable airway has 15mm standard connector
- Radio—Opaque line for X—ray visualization
- Pilot balloon for easy inflation and deflation of cuff

Sizes	
Sizes	1, 1.5, 2, 2.5, 3, 4 & 5

Laryngeal Mask Silicon

- Specially engineered laryngeal mask comes with separate inflation line
- Disposable airway has 15mm standard connector
- Radio—Opaque line for X-ray visualization
- Pilot balloon for easy inflation and deflation of cuff

Sizes	
Sizes	1, 1.5, 2, 2.5, 3, 4 & 5

C-Pap / Bi-Pap Full Face Mask / Nasal Mask

The Sargen is the standard for CPAP masks. Offering streamlined design and quiet performance, It is easy to fit and use, offering a choice of 24 forehead support positions to best suit your individual facial structure. The New cushion technology also accommodates a wide range of movement during sleep and provides an effective solution for jaw drop

Sizes	
Sizes	SMALL / MEDIUM / LARGE

CPAP Hose Pipe

The streamlined design of the tube makes it easier for patients to move around in bed without pulling on the mask, so their mask and seal stay stable.

Handy smart—fit cuff design makes it simpler to attach and remove.

Travel—friendly tube for use at home, in hospital or while Traveling.

Length	
Length	1.8 Meters

Silicone Manual Resuscitator with Accessories

- Resuscitator & Mask made up from 100% silicone.
- Silicone Resuscitator provides excellent bag re—expansion property.
- Pressure Limiting Valve ensures crucial adjustments for enhanced performance.
- Presence of 360-degree swivel joint between Patient Valve and Face Mask facilitates ease of maneuverability to interface with the patient's posture.

Sizes	
Sizes	Adult / Pediatric / Infant

Trachotube (Cuffed)

Tracheostomy Tube

- Soft low-pressure cuff dynamically adjusts the pressure at the point of contact during the breathing cycle minimizes the risk of tracheal trauma & other complications.
- Pilot balloon with non-return valve facilitates the cuff inflation & deflation.

Sizes	
Sizes	3.0 to 9.0

Trachotube (Uncuffed)

Tracheostomy Tube

- Being light in weight and non-irritant it avoids the inflammation around Tracheostomy

Sizes	
Sizes	3.0 to 5.0

Tracho Inner Cannula

Tracheostomy Inner Cannula

The inner cannula fits inside the outer cannula. It has a lock to keep it from being coughed out, and it is removed for Cleaning. The obturator is used to insert a tracheostomy tube. It fits inside the tube to provide a smooth surface that guides the tracheostomy tube when it is being inserted.

Sizes	
Sizes	6.0, 6.5, 7.0, 7.5, 8.0 & 8.5

Nebu mask (Nebulizer Mask)

- Specially designed nebulizer chamber with nebulization rate of approximately 3cc in 10 minutes
- Average particle size generation is approximately 2 microns
- Complete kit consists of: Nebulizer Mask, Nebulizer Chamber, and Star Lumen Tubing
- 200 cm long star lumen tubing to ensure continuous flow of oxygen

Sizes	
Sizes	Adult / Pediatric

HI OXY MASK

HIGH CONCENTRATION MASK

- Specially designed for High Concentration Oxygen Therapy.
- Equipped with soft, transparent and odour free Vinyl Mask for greater patient comfort.
- Non return valves provided at inhale and exhale points, prevent CO2 retention.
- Light weight reservoir improves the oxygen efficiency and Shy patient comfort.
- Mask with Elastic Strap and Non-Return Valve.

Sizes	
Sizes	Adult / Pediatric

OXY MASK (OXYGEN MASK)

- OXYMASK is designed for convenient oxygen therapy.
- Moulded face mask is manufactured from non-toxic, non-irritant medical grade PVC.
- Provided with adjustable elastic strap for proper positioning of mask on the nasal area.
- Swivel connector for convenience of attachment to the oxygen tube.
- Two-meter multichannel tube is provided to ensure continuous flow of oxygen.
- Proximal end fitted with soft funnel shape connector for easy connection to oxygen source.

Sizes	
Sizes	Adult / Pediatric

OXY TUBE (NASAL CANNULA)

- Suitable for easy and efficient administration of oxygen
- Star lumen kink resistant main tube to avoid accidental blockage
- Soft twin prong nasal tips to ensure equal distribution of oxygen
- through both air passages which provides maximum patient comfort
- Tube length: 200cm

Sizes	
Sizes	Adult, Pediatric & Neonatal

NASOPHARYNGEAL AIRWAY

- Suitable for suctioning in I.C. Us & provide an alternative way when oropharyngeal airway is occluded.
- Made of Medical Grade PVC readily conforms to the nasopharyngeal anatomy.
- Thin wall construction provides maximum inner diameter.
- Interior walls with channel grooves, facilitate easy insertion of catheter.
- Specially designed bevel tip reduces mucosal trauma during insertion.

Sizes	
Sizes	6.0, .6.5, 7.0, 7.5 & 8.0 mm

CATHETER MOUNT

- Suitable for connection between endotracheal tube and breathing circuits
- Provided with 22 mm standard female connector compatible with all breathing & ventilator circuits
- An elbow port is provided for easy suctioning without causing disturbance to breathing circuits.

SPIRO-FLO

Respiratory Exerciser

- Innovative system to exercise respiration through aspiration
- Provided with unique handle for easy holding while exercising
- Breathing capacity of 1200cc, 900cc & 600cc provides more efficient exercise to the patient at a step-up basis
- Innovative design, can be dismantled into parts for cleaning & disinfection
- Tube holder holds flexible tube while not in use
- Air Filter for enhanced protection during inspiration

T-RECOVERY / T-OXYGENERATOR

- Suitable for easy and efficient administration of oxygen
- Star lumen kink resistant main tube to avoid accidental blockage
- Soft twin prong nasal tips to ensure equal distribution of oxygen through both air passages which provides maximum patient comfort
- Tube length: 200cm

Sizes	
Sizes	Adult

VENTILATOR CIRCUITS PLAIN

- 22mm corrugated tube of 1.6 m length
- 22mm male and female circuit adaptors x2 insertion.

Sizes	
Sizes	Adult / Pediatric

VENTILATOR CIRCUITS DOUBLE WATER TRAPE

- Flexible breathing system consists of 2 ports of 22 mm diameter
- Y Connector with ports
- Safety cap
- 22 mm straight connector to connect the machine port
- 2 Water traps
- Water trap with capacity of 50ml approx.

Sizes	
Sizes	Adult / Pediatric

BAIN CIRCUITS

- Provided with 22mm Corrugated tube of length 1.6m
- 6mm green PVC tube of length 1.6 m
- APL Valve
- 2.0 L Antistatic Rebreathing Bag
- Provided with 15mm and 10mm corrugated tube of length 1.6m
- 0.5 L Antistatic Rebreathing Bag

Sizes	
Sizes	Adult / Pediatric

HME / BVF FILTER

- Filter particles
- Moisture return: 32mg H, O/L
- Flow rate: 30L/minute at pressure 0.2Mpa
- Filter efficiency: greater than 95%
- Minimum tidal volume: 150ml

Sizes	
Sizes	Adult

GUEDEL AIRWAYS

Suitable for maintaining an unobstructed oropharyngeal airway
 Bite block to prevent biting of tongue and airway occlusion
 Rounded traumatic edges & smooth airway
 Color coded for easy identification of sizes

Sizes	
Sizes	000, 00, 0, 1, 2, 3, 4, 5

SPINAL NEEDLE

Spinal Introducer needles allow for easy insertion of the Spinal Needle and provide additional support. Available in two types Quincke and Pencil type Quincke Type needle provide a sharper bevel for low puncture force, while allowing for a tactile, reliable the precision—ground styles are designed to minimized tissue coring and optimize gliding characteristics.

Sizes	
Sizes	18G, 20G, 21G, 22G, 23G, 24G, 25G, 26G, 27G

MADOFIX LOR

Epidural Kit

Epidural catheter is specially designed for continuous anesthesia and pain relief therapy. Catheter is made from unique plasticizer free polymer with excellent bio—compatibility. Flexible and traumatic soft tip with three lateral eyes. Catheter is printed to determine the depth of insertion and accurate placement of catheter in the epidural space. Luer lock twist connector. Crystal clear catheter with radio opaque line.

Sizes	
Sizes	16 & 18 G

CARDIAC

EMBOLECTOMY CATHETER

Embolectomy catheters are sterile medical devices dedicated for removal of fresh arterial embolism. Catheter is non-toxic, pyrogens free, visible under fluoroscopy. Single lumen catheters use hand-tied balloons that are glued in three areas and pre-stretched for flexibility. These catheters are strong and able to withstand a substantial force before the balloon disengages from the catheter. Balloons are well-centered and resistant to rupture.

Sizes	
Sizes	2, 3, 4, 5, 6 & 7 FR x 80 cm

CONTROL SYRINGE

Control syringe (latex free) is specially designed for ease of use. The plunger tip and barrel are designed for consistent movement and smooth rotator action. The enhanced graduation markings increase legibility. The clear polycarbonate design allows for enhanced visual inspection and the enlarged reservoir stop is specially designed to decrease the possibility of air infusion.

Sizes	
Sizes	10ml & 12ml

MA BAND

Femoral Artery Band

Luer lock fits both ordinary syringe and control syringe. Tape with super adhesive balloon having sufficient stanching pressure

Sizes	
Sizes	20 & 24ml

ARTERIAL PUNCTURE NEEDLE

Arterial puncture is performed to obtain a sample of blood for arterial blood gas (ABG) analysis. An ABG analysis measures the pH and the partial pressure of oxygen and carbon dioxide. ABG samples are also analyzed for oxygen saturation and for bicarbonate values.

Sizes	
Sizes	All Sizes

MANIFOLD

Medical's High & Medium Pressure Stop cocks and Manifolds are suitable for Cath lab and other interventional applications and are designed to withstand 500 to 1200 psi pressure. Our products are available in 2 way and 3-way configurations with rotating High-Pressure adapters or a standard swivel lure lock nut.

Sizes	
Sizes	2 PORT & 3 PORT

ANGIO KIT

The Angio Kit contains all supplies necessary in angiography Sate and other procedures that involve a form of catheter examination. The Angio Kit contains all supplies necessary in angiography and other procedures that involve a form of catheter examination. Advanced Features: Non-toxic.

Sizes	
Sizes	Standard

PTCA KIT

We develop, manufacture, market and support cutting edge vascular access devices and accessories to meet the clinical at. needs of the medical industry, particularly in the field of interventional cardiology and dialysis. Our company's engineering and applications expertise provides superior products whose progressive designs accommodate advances in medical device and whose quality anticipates the requirements of our professional clients and the patients they serve.

Sizes	
Sizes	Standard

PTCA Y CONNECTOR KIT

Hemostatic PTCA Y Connector

Clear Connector are easy, fast and accurate single handed intra vascular device for insertion of PTA Guidewire. Perfect insertion device respecting the integrity of the coated surface with combination of a hemostatic valve and an integrated valve opener. It is a clean and safe product with a minimized backflow thus limiting blood loss during the procedure.

Sizes	
Sizes	All Sizes

INFLATION DEVICE / KIT

Ergonomically designed device to ensure accurate inflation of Interventional Devices. Features an angled analog gauge for better viewing of pressure readings and a luminescent dial for low—lit procedures.

- Comfortable handle grip.
- Device with large barrel to maximize vacuum for rapid and easy deflation.

Sizes	
Sizes	20ml

RADIAL SHEATH

Sheath Works: Coronary catheterization is a minimally invasive procedure to access the coronary circulation using a catheter. The procedure uses a special dye that visualizes the blood flow through the heart. The procedure begins with access to the femoral/radial artery. A needle is inserted through the skin into the femoral artery. The needle is withdrawn until a flash of blood appears.

Sizes	
Sizes	5FR, 6FR x 7cm & 11cm

ANGIOGRAPHY CATHETER

- Tungsten layering in the distal catheter segment results in a highly radiopaque catheter tip that promotes clear Macroscopic visualization.
- Catheter tip stability and excellent contrast flow result in a clear image of the vasculature.
- Soft tip material designed to reduce risk of trauma during contrast injection.
- Advanced tip construction provides the Balance of flexibility and the shape retention required for successful access. Soft tip material reduces risk of trauma during selection and contrast injection.
- Transition to facilitate entry and crossing.
- Predictable torque response designed to facilitate exact positioning.
- Advanced braided shaft designed to promote kink resistance and push—ability to ease advancement through tortuous and distal anatomy.
- Durable, fluted hub designed to ease guidewire manipulation and provide strain relief for kink—
- resistant advancement.
- Wide variety of shapes provides the versatility required to meet individual clinical requirements.
- Proprietary coating enhances lubricity for sheathes insertion and super tracking.

Sizes	
Sizes	All Size

GUIDING CATHETER

Guide catheters are required for all coronary interventions to provide access to the coronary ostium and support equipment delivery. The ideal guide provides stability for device advancement through the coronary anatomy, while minimizing vessel trauma and allowing for vessel opacification.

Sizes	
Sizes	All Sizes

PTCA BALLOON

Feather Balloon Catheter technologies deliver the exceptional performance needed to succeed in demanding cases. Experience the ultra—low profiles of FEATHER BALLOON CATHETER and how a transitionless design can provide exceptional control when accessing lesions.

Sizes	
Sizes	All Sizes

ASPIRATION CATHETER

Catheter which takes control of the Aspiration Process in sync with the proven leader in thrombus removal. It also features a small diameter that enhances crossing and contrast visibility.

Sizes	
Sizes	6FR & 7FR

TRANSEPTAL NEEDLE

Transseptal puncture (TSP) is a frequently performed procedure for gaining access to the left atrium for catheter ablation, hemodynamic assessment of the left heart, left ventricular assist device implantation, percutaneous left atrial appendage closure or mitral valvuloplasty during childhood and adulthood.

Sizes	
Sizes	18Gx 71cm, 89cm & 19 G x 56cm

TEMPORARY PACING LEAD

Pacing leads are designed for temporary trans venous pacing, primarily for patients with the sudden ventricular arrest. It can be used in the present and threatening bradycardia caused by conduction system disorder and acute myocardial infraction. Indications for use may procedures with risk of clinically significant decrease of heart rate and also the need to manage recurrent dangerous ventricular arrhythmias.

Sizes	
Sizes	5FR, 6FR & 7FR

VASCULAR SNARE

A vascular snare is an endovascular device that is used to remove foreign bodies from inside arteries and veins. The snare consists of several radiopaque loops of wire inside a catheter, which when extended flower out, and which collapse when withdrawn into the catheter. Newtech vascular snare have been developed to assist and designed to enhance clinical outcome in Interventional procedures and the Snare loo with 90 degree to shaft remains coaxial to the lumen to manipulate foreign objects in the cardiovascular system.

Sizes	
Sizes	All Sizes

MULLIN SHEATH

Transseptal technique allows left atrial access from the venous system for catheter ablation of left-sided arrhythmogenic substrates. Many physicians prefer the transseptal approach; others use it when a transaortic (retrograde) approach is contraindicated. The Mullin Sheath and Brockenbrough Needle are 2 Sterile, single-use products designed to allow access to the left atrium during electrophysiology procedures. The sterile Mullin sheath / dilator set serves as a conduit for the needle and electrophysiology.

Sizes	
Sizes	6F, 7F & 8F

PTCA STENT

The stent is left in place permanently to allow blood to flow more freely. Coronary angioplasty is sometimes known as percutaneous transluminal coronary angioplasty (PTCA). The combination of coronary angioplasty with stenting is usually referred to as percutaneous coronary intervention (PCI).

Sizes	
Sizes	All Sizes

INTRODUCER SHEATH

Introducer Sheath offers you a blend of flexibility, support and visualization, the capability you need to respond to your challenging cases, Coronary catheterization is a minimally invasive procedure to access the coronary circulation using a catheter. The procedure uses a special dye that visualizes the blood flow through the heart. The procedure begins with access to the femoral/radial artery. A needle is inserted through the skin into the femoral artery. The needle is withdrawn until a flash of blood appears.

Sizes	
Sizes	5,6 & 7FR

CRITICAL CARE

PHARMA

CENTROLINE MONO

Central Venous Catheters

Complete range of Central Venous Catheters, single, double triple & quadruple lumen, meeting the needs of intensive care and emergency medication.

The multi lumen catheters prevent mixing of incompatible drugs thus minimizing the complications.

Sizes

Sizes	14x20cm / 16x20cm / 18x20cm / 20x16cm / 22x8cm
-------	--

CENTROLINE DUO

Central Venous Catheters

Complete range of Central Venous Catheters, single, double triple & quadruple lumen, meeting the needs of intensive care and emergency medication.

The multi lumen catheters prevent mixing of incompatible drugs thus minimizing the complications.

Sizes

Sizes	7xtGom / 7x200m / 5xBem / 5x13cm / 4,5xom / 4,5x130m / 4xBem / 413m
-------	---

CENTROLINE TRIO

Central Venous Catheters

Complete range of Central Venous Catheters, single, double triple & quadruple lumen, meeting the needs of intensive care and emergency medication.

The multi lumen catheters prevent mixing of incompatible drugs thus minimizing the complications.

Sizes

Sizes	7x16em / 7x200m / 5xBcm / 5x13em / 4.5xBem / 4.5x13em / 4xBem / 4x13cm
-------	--

MADOFIX LOR

Epidural Kit

Epidural catheter is specially designed for continuous anesthesia and pain relief therapy. Catheter is made from unique plasticizer free polymer with excellent bio—compatibility. Flexible and traumatic soft tip with three lateral eyes. Catheter is printed to determine the depth of insertion and accurate placement of catheter in the epidural space. Luer lock twist connector. Crystal clear catheter with radio opaque line.

Sizes

Sizes	16 & 18 G
-------	-----------

PRESSURE MONITORING KIT

- Choice of standard Single, Double and Triple kits
- Custom Design kit as per user specifications and requirement Option of Closed loop blood
- sampling kit available including needleless sampling site
- DEHP Free tubing
- Contact for non—obligatory schematic design / samples

Sizes	
Sizes	Single / Double

CLOSED SUCTION SYSTEM

Catheter suction is used to remove tracheal secretions through the endotracheal tube in mechanically ventilated patients, which may be either closed tracheal suction system (CTSS) or open one. In CTSS, the catheter is a part of ventilator circuit with no need to disconnect the ventilator.

Sizes	
Sizes	8, 10, 12, 14 & 16FR

CHEMO NEEDLE

The Wing Huber Set is composed of Bevel90* curved Huber needle and administration set consisting of Butterfly wing, Y Injection Site, Clamp, Male Luer Lock connector and Pelle thane PU Tubing Ideal for Continuous Infusion, Blood sampling through implantable Port.

Sizes	
Sizes	206 & 226

SPO² PROBE SENSOR

A clip—like device called a probe is placed on a body part, such as a finger or ear lobe. The probe uses light to measure how much oxygen is in the blood. This information helps the healthcare provider decide if a person needs extra oxygen.

Sizes	
Sizes	7 & 9 PIN

BIOPSY GUN INSTRUMENTS

Disposable Core Biopsy Instrument It is versatile, easy to use and reliable, with unique rapid firing or two-stage firing feature, it represents the state of the art in automatic biopsy instruments. It can be easily operated with one hand making it ideal for procedures requiring ultrasound guidance, Color coding promotes accurate needle gauge identification & centimeter marking on the cannula helps the professionals to estimate the distance penetrated.

Sizes	
Sizes	16 Gx10 cm / 16 Gx16 cm / 16 Gx20 cm / 16 Gx25 cm
	18 Gx10 cm / 18 Gx16 cm / 18 Gx20 cm / 18 Gx25 cm

BIOSLIT

Disposable Core Biopsy Needle

Biopsy Needle with very sharp cannula for a safe and painless percutaneous insertion and Paton. Its compact, lightweight design can help to reduce tissue shear. It also provides a clear path to work through when performing multiple biopsies in the same area. Echogenic markings on cannula allow for precise ultrasound placement and centimeter depth markings assist in needle placement. Standard sizes are available.

Sizes	
Sizes	14x10cm / 14x16cm / 16x100m / 16x16em / 18x10cm / 18x16cm

BONE MARROW

The needle offers features that have made this bone marrow biopsy / aspiration needle a best seller for decades. The needles are available in a wide variety of sizes to meet user preference. All needles are packaged with an adapter to accommodate luer lock syringes. Lightweight handle with built-in comfort knob enables the practitioner to apply sufficient pressure without discomfort. Tapered distal tip facilitates the recovery of bone marrow samples with unaltered architecture. Single—use design helps assure sterility for every procedure and helps prevent cross contamination. Razor—sharp bevel tip allows easy coring of the bone.

Sizes	
Sizes	86, 116, 13G x 10cm & 150m

EPIDURAL NEEDLE

Epidural Needle has Quality high precision Epidural Needle with unique Tuohy curve & bevel for excellent tactile feel of the different tissues.

- Epidural Space Detection Device for definite visual end point.
- Highly flexible, transparent Epidural Catheter with atraumatic tip for non-traumatic catheterization & minimum complication.
- Catheter Guide for easy catheterization.

Sizes	
Sizes	16G & 18G

DIALYSIS

MADHUKAR

Dual Lumen Catheter Kit
Hemodialysis Catheter Kit Straight Extensions

- Made of specially formulated and bio-compatible Polyurethane material, provides strength during insertion
- PUR material softens at body temperature to conform to the body tissues and reduces the risk of vascular trauma
- Soft flexible kink resistant-tip guide wire made up of nitinol prevents the vessel perforation and also provides good torque to ensure firm insertion.
- Radio-opaque catheter with clear, definite marking facilitates correct placement of catheter tip

Sizes	
Sizes	Adult / Pediatric

MADHUKAR

Dual Lumen Catheter Kit
Hemodialysis Catheter Kit Curved Extensions

- Made of specially formulated and bio-compatible Polyurethane material, provides strength during insertion
- PUR material softens at body temperature to conform to the body tissues and reduces the risk of vascular trauma
- Soft flexible kink resistant-tip guide wire made up of nitinol prevents the vessel perforation and also provides good torque to ensure firm insertion.
- Radio-opaque catheter with clear, definite marking facilitates correct placement of catheter tip

Sizes	
Sizes	Adult / Pediatric

MADHUKAR

Triple Lumen Catheter Kit
Hemodialysis Catheter Kit

- Made of specially formulated and bio-compatible Polyurethane material, provides strength during insertion
- PUR material softens at body temperature to conform to the body tissues and reduces the risk of vascular trauma
- Soft flexible kink resistant-tip guide wire made up of nitinol prevents the vessel perforation and also provides good torque to ensure firm insertion.
- Radio-opaque catheter with clear, definite marking facilitates correct placement of catheter tip

Sizes	
Sizes	Adult / Pediatric

Long Term Dialysis Catheter Kit

UNEPERM dialysis Catheter is a reliable long-term dialysis catheter that consistently delivers high flow rates with low venous and arterial pressures.

Sizes	
Sizes	Adult / Pediatric

A. V. Fistula Needle Set

Fistula Needle is used to access the blood vessels for dialysis process. Ultrathin tube and sharp needle reduce pain on insertion. Soft and elastic tubing is convenient for the patient. Rotatable and fixed wings are easy to handle and control. Screw adapter well with blood lines. A.V. Fistula Needle is made to satisfy all clinical requirements.

Sizes	
Sizes	15G, 16G & 17G

TRANSDUCER PROTECTORS

Transducer Protectors are an effective barrier against bacteria and they are used in hemodialysis blood—lines, Our Transducer Protectors are manufactured with fully automatic technology. The membranes are ultrasonically welded and parts are tested with automatic testing equipment in order to guarantee superior quality of the parts. It can be fitted in any blood line or other medical device, covering the market requirement.

Sizes	
Sizes	Standard

GUIDE WIRE

Guidewires, Uncoated Guidewires, Nitinol Guidewires, Hydrophilic Guidewires and Lunder Quist Guidewires. Our Guidewires are available with J tip or straight tip or double distal ends. We have SS Core Stiff Guidewires, Extra Stiff Guidewires and Super Stiff Guidewires to meet every Clinical requirement of Professionals, we do have Kink Resistive guidewires as well. Our Guidewires range is available from diameter 0.018" to 0.038", which supports length up to—70cm to 260 cm.

Sizes	
Sizes	0.018, 0.025, 0.032, 0.035, 0.038

INTRODUCER NEEDLE

Extremely low insertion forces
 Easy access and reduce tissue trauma.
 Smooth Guidewire Insertion
 Safety Cover for Unwanted Hazard
 Variety of sizes, lengths and shapes.

Sizes	
Sizes	18G & 20G

WOUND CARE

PHARMA

MADODERM

- Transparent Polyurethane | V Dressing Fram Style
- High Moisture Vapor Transmission Rate Film
- Water Proof | V Dressing
- Excellent catheter stability
- Transparent film allows inspection of infection if any without need for dressing removal
- Sterile and packed in peel pouch
- Indication: Transparent film dressing for catheter fixation

Sizes	
Sizes	1623 (6cmx7cm)

MADODERM WITH HP PAD

- Frame Style Polyurethane Transparent Adhesive Dressing with pad
- Made of Polyurethane high MVTR film
- Waterproof Dressing
- Highly Absorbent low Adherent pad
- Sterile and packed in peel pouch
- Indication: To Dress post operative wounds, minor cuts, abrasion, lacerations and puncture sites.

Sizes	
Sizes	8582 (Sem x 7.2cm), 8584 (6cm x 8cm), 8586 (10cm x10cm) 9589 (10cm x 15cm), 8590 (10cm x 20cm), 8591 (10cm x 25cm)

MADODERM

- Frame Style Polyurethane Transparent Adhesive Dressing
- Polyurethane waterproof film coated with hypoallergenic Adhesive
- Maintains the undisputed state of the wound
- Allows wounds to breath due to high moisture vapor transmission rate
- Sterile and packed in peel pouch
- Indication: Wound dressing for primary and secondary care of dry and slightly secreting wounds.

Sizes	
Sizes	1624 (6cm x 7em), 8526 (10cm x 12cm)

MADO PRIME

- Non — Woven Polyurethane | V Dressing Fram Style
- High Moisture Vapor Transmission Rate Film
- Water Proof | V Dressing
- Excellent catheter stability
- Non — Woven film allows inspection of infection if any without need for dressing removal
- Sterile and packed in peel pouch
- Indication: Non — Woven film dressing for catheter fixation

Sizes	
Sizes	7135 (6x8cm), 318 (10x15em), 319 (10x20cm), 320 (10x25cm), 321 (10x30cm)

SURGICAL PAD

Combine Dressing Pad protects a wound and reduces risk of infection. It should be applied with pressure and secured with a bandage. Each sterile dressing pad consists of highly absorbent layers of thick fleece enclosed in a soft and comfortable non—woven fabric to prevent pressure areas forming.

Sizes	
Sizes	7.5x7.5 cm / 10x10 cm / 10x15cm / 10x20 cm

MADOSWAB

When used as a medical dressing, woven gauze is usually made of cotton. It is especially useful for dressing wounds where other fabrics might stick to the burn or laceration.

Sizes	
Sizes	5x5 cmx8plyx5PC / 7.5x7.5 cm8plyx5PC / 10x10cmx8plyx5PC

MADOPAD

ABDOMINAL MOPS

We provide high quality of abdominal sponge that is a sterile lap sponge and is highly used in the operating rooms for controlling of bleeding and other medical applications. It is made from widely absorbent cotton gauze.

Sizes	
Sizes	30x30cmx8ply

DIANABAND

The Elastic Adhesive bandage (EAB) is a lightweight strapping bandage that can be used for athletic taping, ankle taping, knee taping, hand taping and wrist taping. It is frequently used by sports physios in the prevention and treatment of sprained ankles.

Sizes	
Sizes	10cm x 1mtr / 10cm x 4mtr

MADOPORE

Surgical tape or medical tape is a type of pressure—sensitive adhesive tape [1] used in medicine and first aid to hold a bandage or other dressing onto a wound. These tapes usually have a hypoallergenic adhesive which is designed to hold firmly onto skin, dressing materials, and underlying layers of tape, but to remove easily without damaging the skin.

Sizes	
Sizes	1.25cm, 2.5m, 5cm, 7.5cm

MADOTRANS

Transparent Tape

Medical Tape is ideal for reliably securing bulky dressings, tubing and lightweight devices. It is porous and breathable to allow ventilation and maintain skin integrity.

Sizes	
Sizes	1.25cm, 2.5m, 5cm, 7.5cm

MEDO MESH

Burn Mesh

For all kind of large area dressings. Prevents adhesion of dressing on wounds. Facilitates almost painless removal of dressing during dressing change.

Sizes	
Sizes	10x15cm, 15x25cm, 25x30cm, 25x50cm

COLLASHEET

Each Collagen obtains Collagen sheet in sterile preserving medium containing Isopropyl Alcohol and Water. Collagen Sheet is Sterilized by GAMMA IRRADIATION

Superficial and partial thickness superficial non-infected Burns.

- Traumatic loss of Skin
- Skin donor sites
- Chronic skin ulcers
- Dermabrasion cases

Sizes	
Sizes	5x5cm, 5x10cm, 10x10cm, 10x15cm, 10x20cm, 10x25cm, 15x20cm, 15x30cm, 20x30cm & 20x40cm

WOUNDFIL

Collagen plays an important role in this stage of wound healing. Collagen particles were used in chronic non healing ulcer management to prove their efficacy when compared with conventional dressing in a study conducted by us.

Sizes	
Sizes	5m & 10ml

WOUNDFIL - AB

Collagen plays an important role in this stage of wound healing. Collagen particles were used in chronic non healing ulcer management to prove their efficacy when compared with conventional dressing in a study conducted by us.

Sizes	
Sizes	5ml & 10ml

COLLAGRAFT

Bone grafting is a surgical procedure that uses transplanted bone to repair and rebuild diseased or damaged bones. A bone graft is a choice for repairing bones almost anywhere in your body. Your surgeon might take bone from your hips, legs, or ribs to perform the graft.

Sizes	
Sizes	0.25GM

ABSPONGE

Absorbent Gelatine Sponge

Absponge is an absorbable surgical gelatin sponge, widely used as a homeostatic in abdominal, dental, ENT, gynecological, neuro and onco surgeries. Manufactured from highly purified neutral gelatin with hemostatic capabilities Designed to control blood oozing in instances of hemorrhage from multiple small vessels Completely absorbed in 4 to 5 weeks with no residue or encapsulation Non— toxic, non—allergic, non—immunogenic and non—pyrogenic.

Sizes	
Sizes	80mm x 50mm x 10mm

UROLOGY

PHARMA

DOUBLE J STENT

- D.J. Stent used for temporary & prolonged internal drainage from ureteropelvic junction to the bladder.
- Made of superior grade poly—urethane material.
- Complete radio opaque stent for x ray visualization.
- Black line on the stent indicates the direction of coil after withdrawal of guidewire.
- Marking at every cm. and double marking at every 5cm.
- Implant tested with an extremely low encrustation tendency.

Sizes	
Sizes	3.0, 3.5, 4.0, 4.5, 5.0, 5.5, 6.0 & 7.0 FR x 16 & 26 cm

P.C.N CATHETER PIGTAL

Pigtail catheter insertion is an effective and safe method of draining pleural fluid. We encourage its use for all cases of pleural effusion requiring chest drain except for empyema and other loculated effusions that yielded low success rate.

Sizes	
Sizes	8FR to 18FR

STON BASKET NITINAL & S S

Basket have been developed to assist and designed to enhance clinical outcome in Interventional procedures. These baskets are used to retrieve the foreign objects in the Kidney stones system.

Sizes	
Sizes	3 wire & 4 wire

PENILE CLAMP

Penis clamp is an external penis compression device that treats male urinary incontinence, Incontinence clamps for men are applied to compress the urethra to compensate for the malfunctioning of the natural urinary sphincter, preventing leakage from the bladder with minimal restriction of blood flow.

Sizes	
Sizes	Standard

ALL SILICON FOLEY CATHETER

Foley Balloon Catheter

Made of Silicone elastomer bonded with latex rubber, which can be retained in body for longer duration Symmetrical Foley balloon to ensure upright tip in urinary bladder for proper drainage of urine Two lateral eyes to prevent the risk of injury and encrustation Hard plastic valve for trouble free inflation and deflation of balloon Color—coded for easy identification of size.

Sizes	
Sizes	2 Way 6FR to 24FR & 3 Way 18FR to 24FR

MADODRAIN

- Penile Sheath/External Catheter.
- Male Cath is specially designed for urine incontinence for day and night use in male patients.
- Manufactured from 100% latex for soft and gentle feel.
- Provided with soft adhesive coated strip for proper fixing on the penis.
- Proximal end is designed for safe and easy connection to urine bag/leg bag.

Sizes	
Sizes	20mm, 25mm, 30mm & 35mm

FASCIAL DILATOR SET

Used for fascial dilation, intended for stretching or enlarging the fascial tissue covering a cavity, tract or opening prior to a diagnostic or interventional procedure.

- Gradual tapered end & smooth surface for atraumatic entry
- Also available with hydrophilic coating Its ease of introduction
- Optimal radiopacity for better visualization.

Sizes	
Sizes	All Size

URETHRAL DILATOR SET

Used for dilation of the Urethra.

- Tapered end for atraumatic entry during dilation
- Smooth surface fo' introduction
- Optimal radiopacity ter visualization
- To be used for se, lilation
- Side hole for drains!

Sizes	
Sizes	All Size

E.N.T.

MEDOCEL

Nasal Pack with String

Nasal Packing is made from soft, absorbent and polyvinyl alcohol (PVA) sponge. When the dressing contacts with blood, the expanded sponge and pressure on bleeding part.

Sizes	
Sizes	8cm & 10cm & Airway with String 8cm

NASOSPLINT

Aluminum External Nasal Splint

Background/Objectives: Plaster of Paris (POP), thermoplastic splints and self-adhesive padded aluminum splints are the most common splinting methods used after reduction of fractured nasal bones and rhinoplasty

Sizes	
Sizes	Standard

MEDOWICK

Ear Wick

An ear wick can be inserted between the swollen canal walls to help instill medication and keep the medication around longer to assist with healing. An ear wick is hard when you place it in the ear, and it softens and expands as soon as it is moistened.

Sizes	
Sizes	9mm x 15mm

MADOVENT

Ear Ventilation Tube Shepherd

An ear ventilation tube (or vent tube) is a very small tube that's placed in the eardrum. It's also called a myringotomy tube, tympanostomy tube, or pressure equalization (PE) tube. Vent tubes let fluid trapped behind the eardrum drain, which helps prevent ear infections.

Sizes	
Sizes	Standard

TRANSFUSION

M-FLON / N-FLON

IV Canula

Quick Flashback instantly confirms successful venipuncture
 CADva Needle technology enhances success in first—prick of needle
 Instant confirmation of blood flow along catheter body
 increases clinician’s ability to successfully access the vein
 Advance Polyurethane catheter material ensures better bio-
 compatibility & longer indwelling time.

Sizes	
Sizes	18G, 20G, 22G, 24G & 26G

SARGEN I.V SET NON - VENTED

Non—vented IV sets are just the opposite of vented IV sets —
 they don’t have any vents in the tubing. Non—vented IV sets
 work great with flexible plastic containers like the home pump
 Eclipse. Non—vented tubing must also be primed to rid the tube
 of air. Non—vented tubing allows a vacuum to be created within
 the plastic IV bag so that it can collapse as it is emptied.

Sizes	
Sizes	Non — Vented

VENO-LINE

Three Way Stop Cock with Extension Tube

- Low pressure large bore extension line.
- Provided with male luer lock at one end and 3—way stop
 cock at other end enabling the user to run two lines
 simultaneously.
- Luer lock connector provide secure fitting.

Sizes	
Sizes	10, 25, 50, 100, 150 & 200 cm

P.M. LINE

- Small-bore high-pressure extension line.
- Suitable for high pressure monitoring and for connection
 between syringe infusion pump and patient.
- Provided with male luer lock at one end and female luer lock
 at other end and fits all standard equipment.
- Luer lock connectors provide secure fitting.
- Sterile, individually packed in Blister pack.
- Box of 20/ Master box of 400.

Sizes	
Sizes	00, 150 & 200 cm

MADOFLOW REGULATOR

I.V. Flow Regulator Extension Sets Precise flow rate control of I.V. fluids with range of 5 to 250 ml/hr with "Y" injection port for intermittent medication Male luer connector at one end and female luer connector at other end Standard tube length: 20 cm without "Y" site & 40cm with "Y" site.

Sizes	
Sizes	Standard

MADOSPLINT

I.V Splint

The product is made of high quality of pvc. The product is in one side pvc tube and other side sponge material for the comfort. This product is placed below hand while putting the I.V. cannula so that I the cannula can be properly placed

Sizes	
Sizes	1, 2, 3, 4 & 5

I.V. Fix

Cannula Fixation

Non-Woven Adhesive Dressing

- Non-woven Cannula fixation dressing with strip
- Highly absorbent low Adherent
- Excellent Cannula stability
- Dressing allows air & humidity to pass freely
- Sterile & packed in paper pouch
- Indication: Non-woven Dressing for Cannula fixation

Sizes	
Sizes	6cm x 7cm

MADODERM

- Transparent Polyurethane I V Dressing Fram Style
- High Moisture Vapor Transmission Rate Film
- Water Proof I V Dressing
- Excellent catheter stability
- Transparent film allows inspection of infection if any without need for dressing removal
- Sterile and packed in peel pouch
- Indication: Transparent film dressing for catheter fixation

Sizes	
Sizes	1623 (6cm x 7cm)

SURGERY

ABSPONGE

Absorbent Gelatine Sponge

Absponge is an absorbable surgical gelatin sponge, widely used as a homeostatic in abdominal, dental, ENT, gynecological, neuro and onco surgeries. Manufactured from highly purified neutral gelatin with hemostatic capabilities. Designed to control blood oozing in instances of hemorrhage from multiple small vessels. Completely absorbed in 4 to 5 weeks with no residue or encapsulation. Non—toxic, non—allergic, non—immunogenic and non—pyrogenic.

Sizes	
Sizes	80mm x 50mm x 10mm

VACCU SUCTION SET

Yankauer Suction Set

- Suitable for pre-operative removal of secretion and body fluids
- Cut to fit funnel connector to suit different suction pump lines at proximal end. Also available with Kapkon and Conical connector at proximal end
- Standard funnel connector at distal end of tubing to connect Yankauer Handle
- Yankauer Handle is open end—with 4 lateral eyes
- Yankauer Handle available in standard or crown tip with or without vacuum thumb control
- Soft and kink resistant ribbed PVC tubing.

Sizes	
Sizes	Standard

MADOVAC SET

- Close wound drainage device under negative pressure with option to use one or two catheters post—operatively.
- Multiperforated catheters provided with radio opaque line and satin smooth eyes for efficient trauma free performance.
- Graduated bellow allows user to measure drainage volume.
- Different catheter sizes available to meet moderate to heavy drainage needs.

Sizes	
Sizes	10G, 12G, 14G, 16G, 18G

MADOLINE MESH

A hernia mesh serves as a flexible scaffold in hernia repair surgery. It has the ability to reinforce the muscle walls and also prevent the organs from coming through. As such, it prevents the patient's condition from worsening. During the hernia surgery, the surgeon places the mesh on top of the open hernia.

Sizes	
Sizes	6cm x 11cm / 7.6cm x 15cm / 15cm x 15cm / 30cm x 30cm

VASCULAR

SARGEN COMPRESSION STOCKING

Knee High Class—II

Knee High Compression Stocking therapeutic compression socks (for varicos: veins): Made by special elastic Lycra fiber. Forming a pressure gradient from top to bottom with the pressure depletion on the leg to cope with the venous hypertension inside the vein, facilitate the haemal circumfluence, and remedy the varicose veins.

Sizes	
Sizes	S/M/L/XL/XXL/XXXL

SARGEN COMPRESSION STOCKING

MID Thigh Class—II

Mid-Thigh Compression Stocking therapeutic compression socks (for varicose veins): Made by special elastic Lycra fiber. Forming a pressure gradient from top to bottom with the pressure depletion on the leg to cope with the venous hypertension inside the vein, facilitate the haemal circumfluence, and remedy the varicose veins.

Sizes	
Sizes	S/M/L/XL/XXL/XXXL

SARGEN ANTI EMBOLISM

Knee High Class—I

The product prevents the forming of deep venous thrombosis by the provision of declining pressure to the patient's lower extremity facilitating the haemal circumfluence of the vein.

Sizes	
Sizes	S/M/L/XL/XXL/XXXL

SARGEN ANTI EMBOLISM

MID High Class—I

The product prevents the forming of deep venous thrombosis by the provision of declining pressure to the patient's lower extremity facilitating the haemal circumfluence of the vein.

Sizes	
Sizes	S/M/L/XL/XXL/XXXL

STERLIZATION

PHARMA

STERILIZATION REELS

Sterilization reels and pouches are used in preventing ink pigmentation. — They have an extra reinforced layer film used to avoid tear during openings. — They have protective dust covers for increased protection of sterile packs during distribution and storage. — They are used to package extra— long products.

Sizes	
Sizes	50mm, 75mm, 100mm, 125mm, 150mm, 200mm, 950mm & 300mm x 200mtr

AUTOCLEASE TAPE

Autoclave tape is an adhesive tape used in autoclaving (heating under high pressure with steam to sterilize) to indicate whether a specific temperature has been reached. Autoclave tape works by changing color after exposure to temperatures commonly used in sterilization processes, typically 121°C in a steam autoclave.

Sizes	
Sizes	18mm x 50mtr

ETO TAPE

ETO Sterilizer Indicator Tape is designed to indicate whether a specific temperature has been reached for sterilization identification on items exposed to ETO.

Sizes	
Sizes	18mm x 50mtr

ORTHOPEDIC SUPPORT

PHARMA

MADOCAST

FIBER CAST

Size: 2,3, 4,5 & 6 inch

- Offers high cast strength
- Resin is not tacky, ensuring remarkably easy unrolling and unhampered application

GYPSONAR

Plaster of Paris

Size: 10 & 15cm

- Higher cast strength due to presence of A crystals
- Outstanding creaminess & appreciable mouldability due to presence of B crystals
- Minimal dry & wet powder loss

Sargen Orthonet

Stockinete

Size: 10 & 15cm

Made from high quality long stapled cotton. Seamless fabric knitted on state of art looms provides a durable, comfortable and hypo—allergenic interface between skin and various orthotic or prosthetic devices.

Softflex

Cast padding

- Made of time tested and reliable viscose
- Provides excellent cushioning effect & comfort

Dianaband

Size: 10cm x 1 & 4mitr

Elastic Adhesive bandage

The Elastic Adhesive bandage (EAB) is a lightweight strapping bandage that can be used for athletic taping, ankle taping, knee taping, hand taping and wrist taping.

Leecucreape

Size: 6cm, 8cm, 10cm & 15cm x 4mtr

- Remarkable stretch & regain properties
- Soft texture ensures patient comfort
- Composed of natural fibers which eliminates risk of sensitization
- Retains elasticity even after several washes

Madomall

Size: 5cm x 2mtr / 10mtr, 7.5m x 2mtr / 10mtr, 10cm x 2mtr/ 10mtr

- Non-woven Dressing Retention
- Combines security with comfort
- Highly Conformable
- Provides reliable fixation for catheters and drainage tubes
- Coated with hypoallergenic acrylic adhesive
- Also available in Polyurethane (PU) rolls
- Indication: Retention of post-operative wound Dressings

Madomall Transparent

Size: 5cm x 2mtr / 10mtr, 7.5cm x 2mtr / 10mtr, 10cm x 2mtr / 10mtr

- Provides up to 15% better adhesion than most polyurethane films'
- Polyurethane prevents entry of pathogens reducing external contamination?
- Roll form offers flexibility of size and shape

Sargen Cervical Collar Soft

Size: S, M, L, XL

Soft polyurethane foam provides unmatched comfort for geriatric/Iproulonged use. Used as prophylactic collar, for comfortable support during traveling. Hypo—allergenic cotton stockinet improves comfort and compliance. Anatomical design ensures uniform support, better fit and comfort. Perforated collar body improves ventilation and comfort.

Sargen Cervical Collar Hard Adjustable

Size: S, M, L

Strong PE sheet body provides rigid Support and immobilization. Ethafoam edge padding improves Cushioning, comfort, and life of the collar. Adjustable height ensures a secure fit & better immobilization. Perforated collar body improves ventilation and comfort. Long hook—loop tape ensures snug fitting and easy application.

Sargen (Philadelphia Collar)

Size: S/M/L

Cervical Orthosis (Philadelphia Collar) For simple and stable fractures of cervical vertebrae, post— trauma, disc herniation, spondylolisthesis and other similar conditions. 2— piece design with anterior and posterior struts of semi-rigid plastic. Has molded chin and occipital support.

Sargen Cervical Pillow Regular

Size: UN

High density foam ensures effective support to the neck, good resilience and long life. Optimal hardness ensures soft, cushiony, comfortable Support. Scientific design maintains the neck in slight hyper extension, provides required muscle relaxation. Plush covering provides soft feel, good aesthetics and durability.

C.T Head Holder

Size: UN

Sargen Clavicle Brace

Size: S, M, L, XL

Claw buckles ensure no loosening with time, better tightening and grip. Buckle pad ensures full protection from buckle bite. PU foam padding ensures no underarm rash, better comfort and compliance, Figure of eight design with lateral vector ensures linear union of the bone, easy application and tightening of the brace. Plush fabric covering offers skin friendly interface.

Sargen Rib Belt

Size: S, M, L, XL, XXL

Strong orthopedic webbing, compresses and holds surgical incisions during coughing bouts and alleviates pain. Additional Ethafoam pad offers a strong localized grip at the fracture site, improves immobilization and healing. Large hook loop panel allows Controlled compression and flexibility in sizing. Extra porous material ensures good ventilation and patient comfort.

Shoulder Support

Size: S, M, L, XL, XXL

It is recommended in conditions like Shoulder subluxation, shoulder dislocation, rotator cuff tendonitis and shoulder instability

Sargen Chest Binder

A-11 Size: S, M, L, XL, XXL, XXXL

Thick, anatomic, extra soft, PUF pad grips and binds the fractured sternum comfortably. Strong, V shaped elastic band gives good compression & helps in equidistribution of pressure. Reduces post operative pain and discomfort, facilitates phlegm expulsion. Bi-tongued hook loop tape ensures controlled compression and easy application. Aesthetically designed in pleasing shades of grey.

Sargen Ash Brace (Hyper Extension Brace)

Size: UN

Anodized aluminum body has sturdy construction & appealing aesthetics. Can be shaped for perfect fitting and immobilization. Easy, slide & screw mechanism ensure accurate height customization, anatomically shaped, Ethafoam covered pads, with swivel joints offer accurate interface & enhanced comfort. Broad & rigid back pad provides strong support to relieve the anterior pressure on vertebrae.

Sargen Taylor's Brace

Size: S, M, L, XL

Rigid, removable, customizable, anatomically contoured, splints ensure perfect fitting, enhanced immobilization & right spinal posture. Adjustable shoulder straps, offer neutral spinal posture, strong grip & self-tightening of the brace. Sleek, PUF fused body offers good cushioning, better comfort and pleasing aesthetics.

Sargen Universal Shoulder Immobilizer

Size: S, M, L, XL

Three-layered PUF fused fabric offers durability, soft feel, plush looks, and wrinkle free property. Two-piece design with pouch offers proper support, correct posture, higher immobilization and easy application. Arm restraint band ensures additional locking and enhanced immobilization of the arm and the shoulder. Double straps on the shoulder divides the load uniformly and improve comfort.

Sargen Lumbo Sacral Belt PHARMA

Size: S, M, L, XL, XXL, XXXL

Ideal back support for general use in mild back ache. Flexible back splints, on wearing takes the body's shape for comfortable immobilization. Highly porous elastic webbing improves ventilation and comfort. Heat resistant rubber with high modulus of elasticity ensures durability and resilience. Double pull elastic mechanism provides extra compression & improves splinting action.

Sargen Contoured L.S. Support

Size: S, M, L, XL, XXL, XXXL

Anatomically contoured, rigid splints provide effective immobilization & maintain correct posture, Malleable aluminum splints can be customized for accurate shape and enhanced immobilization. Double pull mechanism enhances compression & splinting action. Ethafoam back pad offers high cushioning in thin sections, enhances comfort, without compromising on immobilization.

Sargen Abdominal Support 9"

Size: S, M, L, XL, XXL, XXXL

Thin construction in single panel, remain: inconspicuous through clothes. Strong & porous elastic webbing ensures good compression, improves ventilation and comfort. Broad hook loop tape flapper offers secured holding and size adjustability, Designed in nice shades of grey for pleasing aesthetics. Nylon reeves prevent rolling over of belt.

Sargen Tummy Trimmer / Abdominal Belt 8"

Size: UN

Extra strong three panel elastic provides a strong compression, improved ventilation and comfort. Optimal compression binds surgical incisions, improves healing, provides comfort during sudden movements or coughing in thoracic surgeries. Can be used to compress the bulge or tone up abdominal muscles. Can also be used in ventral hernia. Nylon reeves prevent rolling over of the belt.

Sargen Pouch Arm Sling

Size: S, M, L, XL, XXL

Designed for maximum support accommodate bulky casts or bandages. Three—layered PU bonded fabric offers durability, soft feel, plush looks, and wrinkle free property. Thumb cradle reduces thumb fatigue. Adjustable "Ethafoam" shoulder pad takes the load and improves comfort. Optimal positioning of the arm can be done by adjustable sling.

Sargen Elastic Wrist Splint (Rt/Lt)

Size: S, M, L, XL

Made of strong and porous, high-quality elastic, which ensures adequate compression, strong support and durable product. Removable and malleable splint ensures good immobilization, helps in customized fitting and achieving required degree of dorsi—flexion. Built in opening for thumb abduction for neutral positioning and quick healing.

Sargen Thumb Spica Splint

Size: UN

Removable malleable splint provides customized abduction of the thumb; Strong splinting ensures excellent immobilization and stability to CMC & MCP joints of the thumb. Durable, PUF fused body provides excellent aesthetics and comfort.

Sargen Forearm Splint

Size: UN

Extra-long & strong, dorsal & volar splints ensure good immobilization. Customizable aluminum, splints ensure perfect fitting & enhanced comfort. PUF lined Matty fabric body ensures durability, improved comfort & better aesthetics. Two parts, amphidextrous design allows customized compression and ease of use. One size fits all.

Sargen Wrist Brace with Double Lock

Size: S, M, L

Double locking ensures stronger grip, better fitting and universal sizing. Strong elastic with excellent compressive strength, supports, protects & provides requisite immobilization of the wrist. Striped elastic with excellent porosity ensures improved comfort. One-piece fits both hands.

Sargen Wrist Brace with Thumb

Size: UN

Strong elastic with excellent compressive strength, supports, protects & provides requisite immobilization of the wrist. Striped elastic with excellent porosity ensures excellent comfort. Anatomical thumb opening is designed for slight abduction and comfort of the thumb. Allows free movement of the thumb & fingers. One-piece fits both hands.

Sargen Tennis Elbow Support

Size: S, M, L, XL

Breathable PUF fused fabric give excellent aesthetics, comfort and long life. Reverse buckle strapping ensures strong grip and firm compression. Silicon pad interface absorbs impact and vibration very effectively; it provides proprioception and quick healing. Smart and sporty, can be used both for therapeutics and prophylaxis.

Sargen Elbow Support

Size: S, M, L, XL

Anatomically shaped with extra stretch at elbow allows easy elbow movement, better comfort, better compression and grip. High quality Nylon- Spandex yarn provides four-way stretchability for snug fitting and excellent compression It ensures long life, soft feel, excellent aesthetics and color fastness. It retains body heat for quicker healing. Elasticized band provides controlled and targeted compression at the site of intlammaion. Allays pain and reduces vibration.

Sargen Finger Cot

Size: S, M, L

Strong aluminum body ensures rigid immobilization. Anodized surface provides pleasing aesthetics and improved life. U design ensures full protection, easy wearing & good ventilation. "Ethafoam" liner gives enhanced cushioning & comfort, it is also easy to clean. Inbuilt hook loop tape provides close fitting, excellent grip and easy application.

Sargen Frog Splint

Size: S, M, L

Strong aluminum body provides rigid immobilization. Malleable arms, can be shaped for good grip. Anatomic design Immobilizes all joints in neutral position. Sleek, well ventilated, comfortable, does not restrict the movement of other fingers. "Ethafoam" lining gives enhanced cushioning & comfort, it is also easy to clean.

Sargen Mallet Finger Splint

Size: UN

Strong, provides rigid immobilization. Malleable, can be bent & customized. Highly practical design to maintain DIP joint in hyper extension, Sleek, simple, and comfortable, ensures better compliance. Inbuilt hook loop fasteners provide snug fitting and excellent grip.

Sargen Finger Ext. Splint

Size: S, M, L

Extra-long & strong, dorsal & volar splints ensure good immobilization. Customizable aluminum, splints ensure perfect fitting & enhanced comfort. PUF lined Matty fabric body ensures durability, improved comfort & better aesthetics. Two parts, amphidextrous design allows customized compression and ease of use. One size fit all.

Sargen Weight Cuff

Size: 1/2Kg, 1Kg, 2kg

Hook loop strap ensures complete safety, prevents falling and accident. ideal for invalids, general physiotherapy and rehabilitation. Can be used during normal chores to improve muscle strength and stamina, Tough Spandex fabric provides flexibility and ease of wearing, high cushioning and is aesthetically appealing. Smooth steel balls guide to ensure no injures accidents, ease in wearing and tightening.

Sargen Exercising Ball

Type: Ortho /Neuro

Inert MDI PU foam— safe to use. Excellent resilience with a long functional life, Two resistances Ortho (hard) & Neuro (soft). Compatible for thermal or hydrotherapy. Flexible and pleasurable exercise plans can be designed to give better compliance.

Sargen Tummy Trimmer Belt 8"

Size: UN

Extra strong three panel elastic provides a strong compression, improved ventilation and comfort Optimal compression binds surgical incisions, improves healing, provides comfort during sudden movements or coughing in thoracic surgeries. Can be used to compress the bulge or tone up abdominal muscles. Can also be used in ventral hernia. Nylon reeves prevent rolling over of the belt.

Sargen Pelvic Traction Kit

Size: S, M, L, XL

Available as ready to use kit, includes P.T belt, Spreader bar, Traction pulley & Traction cord. Convenient for home or hospital use. Cost effective & easy to apply. Sturdy design for a long life & multiple use. PT Belt offers Customized compression with oblique straps for correct vector of the tractional force.

Sargen Knee Immobilizer Short/ Long Type

Size: S, M, L, XL, XXL

Anatomically contoured aluminum splints ensure perfect immobilization & grip, enhanced comfort and no hot spots. Body of PUF fused fabric ensures proper cushioning, enhanced comfort, long life & anti slip properties. Removable patellar strap improves immobilization further, Light weight, aesthetically smart, improves comfort and Compliance.

Sargen Ankle Binder

Size: S, M, L, XL

3D, knitting with mellowed heel spot, ensures snug fitting, strong compression, comfortable ankle movement and perfect conformance to the complex anatomy of the ankle. Elasticized wrap in figure of eight stabilizes ankle, controls inversion/aversion & plantar flexion. Dermophilic cotton ensures, comfort in all weather conditions. Nylon outside ensures durability & nice aesthetics.

Sargen Ankle

Size: S, M, L, XL

Bi-layered construction, dermophilic Cotton inside ensures comfort in all weather conditions. Nylon outside ensures long life, excellent aesthetics & color fastness. Four-way stretchable knit with "Spandex" provides effective compression, comfort and no buckling of fabric. Thick knit retains body heat, provides therapeutic warmth and assuring support. Simple pull-on application is easy to use.

Sargen Knee Cap

Size: S, M, L, XL, XXL, XXXL

Bi-layered construction, dermophilic cotton ensures, comfort in all weather conditions. Nylon outside ensures long life, excellent aesthetics and color fastness. Four-way stretchable knit with "Spandex" provides effective compression, comfort and no buckling of fabric. Thick knit retains body heat, provides therapeutic warmth and assuring support.

Sargen Knee Cap (with Rigid Hinge)

Size: S, M, L, XL, XXL

Bi-layered construction, dermophilic cotton ensures, comfort in all weather conditions, Nylon outside ensures long life, excellent aesthetics and color fastness. Strong hinges provide rigid side splinting and free flexion movement. Anti tourniquet strapping, provide better grip and ensure no blood constriction as well.

Sargen Knee Cap with Patellar Ring

Size: S, M, L, XL

Do not allow the product to roll down. Advanced 3 D woven patellar pouch relieves patellar pressure, enhances comfort during sitting and squatting. Removable Silicon Patellar Padding compresses patellar tendon, reduces patellar pressure and positions patella. Nylon— Spandex, Stretchable fabric ensures uniform compression, snug fitting, warmth for quicker healing, long functional life, soft feet and appealing aesthetics.

Sargen Foot Drop Splint with Liner (Rt/Lt)

Size: S, M, L

Extra strong three panel elastic provides a strong compression, improved ventilation and comfort. Optimal compression binds surgical incisions, improves healing, provides comfort during sudden movements or coughing in thoracic surgeries. Can be used to compress the bulge or tone up abdominal muscles. Can also be used in ventral hernia. Nylon reeves prevent rolling over of the belt.

Sargen Cast Shoe

Size: S, M, L, XL

Rocker Sole is light in weight. It improves balance, restores normal gait, enhances ease of walking and helps in early ambulation. Has pleasing looks. Strong and Durable Upper protects the cast. Prevents soiling and mechanical damage. Quick drying material with enhanced aesthetics. Uniquely designed hook loop closure system ensures good grip, flexibility in sizing and ease of application & removal.

Sargen Heel Cushion Silicone

Size: S, M, L, XL

Transparent Silicone which has high cushioning coefficient, excellent shock absorption energy return and long functional life. It is odorless, hypoallergenic, easy to clean and esthetically pleasing. Soft Spots relieves pressure at the base of the calcaneus and provide focused pain relief. The honey comb structure further enhances shock absorption properties.

Sargen Toe Separator Silicone

Size: S, M, L

Anatomically designed, aligns big toe, relieves pain in Hallux valgus, callus, corn or bunions. Separates toe fingers, takes care of toe fungal infections like Dhobi itch. Silicone has high cushioning coefficient, absorbs impact, has a long functional life, it is odorless, easy to clean and maintain. Comfortable, offers better tolerance and compliance. Can be used in post-surgical care.

Sargen Insole Gel Massage

Size: S, M, L, XL

Viscous gel enhances cushioning, comfort and walking pleasure. Absorbs impact, reduces chances of osteoarthritis injuries, Helps in treatment of plantar heel metatarsal pain. Dynamic fluid circulation massages feet, reduces fatigue and improve pleasure of walking. Aids blood flow, reduces varicose vein/such disorders. Good for diabetic foot. Ergonomically designed for everyday wear, improves shoe comfort and fitting, durable, easy foot glide during wearing.

Sargen Arch Support

Size: Ch, Ad

Easy stick-on application, optimal curvature for effective arch support, comfortable hardness, streamlined shape, matte surface for good grip to the foot. Molded out of strong transparent elastomer for long functional life, it is odorless and hypoallergenic with pleasing aesthetics. Easy to clean and maintain.

Sargen OT Round Head Support

Size: S, M, L

Supports patient's head during prolonged surgeries (air and gel cushioning) Protect skull, neck and ears in multiple positions by conforming to head's contour.

Sargen Insole Gel Massage

Size: S, M, L, XL

Recommended for burns, arthritis, fractures, nerve damage etc. who require hand and finger exercise for grip strength. Gives dexterity, mobility and fine/ gross motor skills

Sargen Metatarsal Cushion Female

Size: UN

Metatarsal Pad is designed to provide prevention of Metatarsal pain, soreness corns, Morton's, neuroma etc. Absorbs shock, and alleviates painful rubbing and friction on walking. Made from Silicone/TPE, has high cushioning coefficient, resists bacterial/fungal growth, has long functional life, is odorless and washable, Easy stick-on application and thin construction allows easy positioning inside the

Sargen Metatarsal Cushion Male

Size: UN

Metatarsal Pad is designed to provide prevention of Metatarsal pain, soreness corns, Morton's, neuroma etc. Absorbs shock, and alleviates painful rubbing and friction on walking. Made from Silicone/TPE, has high cushioning coefficient, resists bacterial/fungal growth, has long functional life, is odorless and washable. Easy stick on application and thin construction allows easy positioning inside the

Sargen Hot & Cold Pack

Size: M, L

Versatile device to provide both hot and cold compresses with temperature range 4-to-60-degree C. Reusable with a long functional life. Can treat inflammation, muscle spasm, pain, injury and hyper-pyrexia. Non-t biodegradable gel remains soft and flexible on freezing. Plush fabric cover is durable, soft and gentle. The elastic belt makes it "hands free" & body conforming.

Sargen Heating Pad Ortho

Size: UN

PTFE extruded heating element ensures, complete protection against electric shock, higher temp stability and long functional life. High quality fabric Pad has excellent aesthetics and workmanship with a feather touch soft feel. It is flexible, conforms to the body contours and ensures no hot spots. Design features: Water repellent thermostat, Detachable cord, Stable heating temp, 90 min. shutoff.

Sargen Hot & Cold Pack

Size: M, L

Versatile device to provide both hot and cold compresses with temperature range 4-to-60-degree C. Reusable with a long functional life. Can treat inflammation, muscle spasm, pain, injury and hyper-pyrexia. Non-t biodegradable gel remains soft and flexible on freezing. Plush fabric cover is durable, soft and gentle. The elastic belt makes it "hands free" & body conforming.

Sargen Cool Pack

Size: UN

Helps relieve pain post injury. The coolest and easiest solution for stress.

Sargen Anti Embolism Stocking (D.V.T.) Class 1 Knee High & Thigh High

Size: S, M, L, XL, XXL, XXXL

Anatomical shape and graded Spandex ensure accurate compression for effective blood evacuation. High quality Nylon yarn is dermophilic, provides excellent aesthetics and color fastness.

Sargen Medical Compression Stocking Knee High & Thigh High: Class II

Size: S, M, L, XL, XXL, XXXL

Anatomical shape and graded Spandex ensure accurate compression for effective blood evacuation. High quality Nylon yarn is dermophilic, provides a durable product with excellent aesthetics and color fastness. Top Silicone band ensures no slippage and no constriction, Closed heel and Open toe design reduces wear and tear, is easy to wear and improves comfort.

Sargen Compression Stocking Mid-Thigh & Below Knee

Size: S, M, L, XL, XXL

High Quality, high denier Nylon yarn is dermophilic, provides strong, durable product with long functional life, excellent aesthetics and color fastness. Higher Spandex and Rubber content ensures effective compression. Tapered shape offers graded compression upwards from toe for effective blood evacuation. Closed heel and open to ensure comfort at the heel. effective blood evacuation and reduced wear & tear.

Sargen Skin Traction Set (PUF Liner)

Size: CH. AD

Available as ready to use Kit. Convenient for emergencies. Cost effective, easy and quick to apply. High performance crepe bandage ensures firm grip, no slippage or loosening. Poly Urethane Foam liner offers frictional adhesion & non slipping interface. Strong Matty liner offers durability, large contact area and uniform traction.

MISCELLANEOUS

EYEPAD

Designed to apply to any eye wound prior to arrival of professional help and stem bleeding while patient is en route to hospital. Dressing is wrapped in strong flow pack and is Sterile with the sterility expiry date clearly printed on the outside of the pack to ensure your first aid kit is compliant.

SKINSEAL

Topical Skin Adhesive

The skin at the site of injury is approximated and the tissue adhesive is slowly applied in layers, using the unique micro brush with applicator, after which it is allowed to polymerize for 30 seconds to a minute. Once complete polymerization is achieved, a firm film forms over the cut, acting like a microbial barrier.

ECG ELECTRODE

ECG electrode is a non-invasive diagnostic test that evaluates your heart's electrical system to assess for heart disease. It uses flat metal electrodes placed on your chest to detect the electrical activity of your heart as it beats, which is then graphed.

Sizes	
Sizes	Adult / Pediatric

ECG PAPER

A recording of the heart's electrical activity. It is an electrogram of the heart which is a graph of voltage versus time of the electrical activity of the heart [5] using electrodes placed on the skin. These electrodes detect the small electrical changes that are a consequence of cardiac muscle depolarization followed by repolarization during each cardiac cycle (heartbeat).
